Exceptional Coverage for Exceptional Times

There are ever increasing demands being made on design and build contractors with contractual language evolving to pass more and more responsibility onto the contractor.

It is therefore of great importance that the policy language of a design and build PI wording responds as much as reasonably possible to the onerous obligations and liabilities they may attach to a design and build contractor.

With our unrivalled experience, expertise and knowledge in this area we are well positioned to deliver bespoke policy coverage solutions to our clients.

Exceptional Clients Demand Exceptional Service

We also pride ourselves on our ability to provide ongoing insurance related advice to our clients in respect of the contractual and commercial issues that our clients face as they go about their businesses.
