FIRM PROFILE

We work hard to add value to our clients' deals by translating risk and insurance issues into financial and transaction issues that impact the sale negotiations.

We can provide you with the following solutions and services:

- **Vendor assistance** – providing a range of services to support the disposal process, including the identification of potential areas which may impact value, together with solutions to address them.
- **Vendor due diligence** – the provision of an independent and objective insurance due diligence report on the business to be disposed.
- **M&A insurance** – transaction tools, such as warranty and indemnity insurance, tax and environmental insurance to help the viability and ensure smooth progression of a transaction.
- **Public offering of securities insurance (POSI)** – provides prospectus liability cover for initial public offerings (IPOs).
