## SPECIAL CATEGORIES OF PERSONAL DATA AND CRIMINAL DATA

When we collect, use or disclose to third parties (such as insurers, intermediaries and reinsurers) Special Categories of Personal Data and Criminal Records Data for the reasons set out in the table above and for profiling as set out in the next section, we typically do so for reasons of substantial public interests, namely because it is necessary for the wide range of insurance-related activities that we undertake or because it is necessary for fraud prevention purposes.

Before you provide us with Special Categories of Personal Data and Criminal Records Data about a person other than yourself, you agree to notify such person of our use of their Personal Data and, if requested by us, to obtain their consent to our use of their Special Categories of Personal Data and Criminal Records Data (for example, by requiring the individual to sign a consent form).

## PROFILING AND AUTOMATED DECISION MAKING

Insurance premiums are calculated by insurance market participants benchmarking clients' and beneficiaries' attributes as against other clients' and beneficiaries' attributes and propensities for insured events to occur. This benchmarking requires Marsh and other insurance market participants to analyse and compile information received from all insureds, beneficiaries or claimants to model such propensities. Accordingly, we may use Personal Data to both match against the information in the models and to create the models that determine the premium pricing in general and for other insureds. Marsh and other insurance market participants may use special categories of Personal Data and criminal records data for such modelling to the extent it is relevant, such as medical history for life insurance or past motor vehicle convictions for motor insurance.

Marsh and other insurance market participants use similar predictive techniques to assess information that clients and individuals provide to understand fraud patterns, the probability of future losses actually occurring in claims scenarios, and as set out below.

We use these models only for the purposes listed in this Privacy Notice. In most cases, our staff make decisions based on the models.

- **Automated broking platform**

Where clients use the automated broking platform, insurance quotations are offered entirely by matching whether the attributes that the client has provided meet the criteria set by the insurers, which determines (a) whether a quotation will be made; (b) on what terms; and (c) at what price. Each insurer will use different algorithms to determine their pricing, and clients must consult each insurer's privacy policy for further details. Our platform merely queries whether attributes of potential insureds satisfy insurers' models and then returns the results. If the potential insured's attributes do not satisfy insurers' models, the quotation request is referred for review by a team with underwriting authority. We also apply fraud prediction algorithms to the information clients provide to assist us in detecting and preventing fraud. We regularly review all profiling and associated algorithms against inaccuracies and bias.

These partially automated processes may result in a client not being offered insurance or affect the price or terms of the insurance.

Clients may request that we provide information about the decision-making methodology and ask us to verify that the automated decision has been made correctly. We may reject the request, as permitted by applicable law, including when providing the information would result in a disclosure of a trade secret or would interfere with the prevention or detection of fraud or other crime. However, generally in these circumstances we will verify that the algorithm and source data are functioning as anticipated without error or bias.

## SAFEGUARDS

We have in place physical, electronic, and procedural safeguards appropriate to the sensitivity of the information we maintain. These safeguards will vary depending on the sensitivity, format, location, amount, distribution and storage of the Personal Data, and include measures designed to keep Personal Data protected from unauthorised access. If appropriate, the safeguards include the encryption of communications via Secure Sockets Layer, encryption of information during storage, firewalls, access controls, separation of duties, and similar security protocols. We restrict access to Personal Data to personnel and third parties that require access to such information for legitimate, relevant business purposes.

## LIMITING COLLECTION AND RETENTION OF PERSONAL INFORMATION

We collect, use, disclose and otherwise process Personal Data that is necessary for the purposes identified in this Privacy Notice or as permitted by law. If we require Personal Data for a purpose inconsistent with the purposes we identified in this Privacy Notice, we will notify clients of the new purpose and, where required, seek individuals' consent (or ask other parties to do so on Marsh's behalf) to process Personal Data for the new purposes.

Our retention periods for Personal Data are based on business needs and legal requirements. We retain Personal Data for as long as is necessary for the processing purpose(s) for which the information was collected, and any other permissible, related purpose. For example, we retain certain transaction details and correspondence until the time limit for claims arising from the transaction has expired, or to comply with regulatory requirements regarding the retention of such data. When Personal Data is no longer needed, we either irreversibly de-identify the data (in which case we may further retain and use the de-identified information for analytics purposes) or securely destroy the data.

## CROSS-BORDER TRANSFER OF PERSONAL INFORMATION

Marsh transfers Personal Data to, or permits access to Personal Data from, countries outside the European Economic Area (EEA). These countries' data protection laws do not always offer the same level of protection for Personal Data as offered in the EEA. We will, in all circumstances, safeguard Personal Data as set out in this Privacy Notice.

[Certain countries](#) outside the EEA have been approved by the European Commission as providing essentially equivalent protections as EEA data protection laws. EU data protection laws allow Marsh to freely transfer Personal Data to such countries.

If we transfer Personal Data to other countries outside the EEA, we will establish legal grounds justifying such transfer, such as [MMC Binding Corporate Rules](#), model contractual clauses, individuals' consent, or other legal grounds permitted by applicable legal requirements.

Individuals can request additional information about the specific safeguards applied to the export of their Personal Data.

## ACCURACY, ACCOUNTABILITY, OPENNESS AND YOUR RIGHTS

We strive to maintain Personal Data that is accurate, complete and current. Individuals should contact us at [dataprotection@marsh.com](mailto:dataprotection@marsh.com) to update their information.

Questions regarding Marsh's privacy practices should be directed to the Data Protection Officer using the contact details in the Questions, Requests or Complaints section below.

Under certain conditions, individuals have the right to request that Marsh:

- provide further details on how we use and process their Personal Data;
- provide a copy of the Personal Data we maintain about the individual;
- update any inaccuracies in the Personal Data we hold;
- delete Personal Data that we no longer have a legal ground to process; and
- restrict how we process the Personal Data while we consider the individual's enquiry.

In addition, under certain conditions, individuals have the right to:

- where processing is based on consent, withdraw the consent;
- object to any processing of Personal Data that Marsh justifies on the “legitimate interests” legal grounds, unless our reasons for undertaking that processing outweigh any prejudice to the individual’s privacy rights; and
- object to direct marketing (including any profiling for such purposes) at any time.

These rights are subject to certain exemptions to safeguard the public interest (e.g. the prevention or detection of crime) and our interests (e.g. the maintenance of legal privilege). We will respond to most requests within 30 days.
