## PREMIUM TAXES

Annual Assessment (Sec. 206 of New York State Financial Services Law), based upon direct premiums for risks located in New York only (non-New York and reinsurance premiums are not used in calculating the assessment). The estimated rate is approximately 0.89% of New York direct premiums written.

| Premium Tax on Direct Premiums | 0.400% on first $20 million.  
|                              | 0.300% on next $20 million.  
|                              | 0.200% on next $20 million.  
|                              | 0.075% thereafter.  
|                              | Subject to a minimum of $5,000 combined direct and reinsurance.  
| Premium Tax on Reinsurance Premiums | 0.225% on first $20 million.  
|                                  | 0.150% on next $20 million.  
|                                  | 0.050% on next $20 million.  
|                                  | 0.025% thereafter.  
|                                  | Subject to a minimum of $5,000 combined direct and reinsurance.  

### Intercompany Loans

The captive may lend funds in excess of the minimum capitalization requirements subject to regulatory approval.

### Investment Restrictions

None, unless solvency is threatened.

### Taxation

Income generated by the captive will be subject to the federal tax rate of the captive parent (assuming the parent is US-based). No New York State Income tax applies to captive profits if the captive is an “insurance company for federal income tax purposes.”
