AIMS OF THE POLICY

- to encourage you to feel confident and safe in raising concerns and disclosing information;
- to provide guidance for making a report in confidence and receive feedback on any action taken;
- to ensure that you receive a response to your concerns and information disclosed;
- to reassure you that you will be protected from retaliation or any threat of retaliation;
- to ensure the confidentiality of Protected Person and Person Involved.

POLICY DETAILS

Consistent with our emphasis on the integrity of business, all Workers should be able to raise issues of concern if they feel a wrongdoing has occurred.

Marsh S.A. will investigate genuine and reasonable concerns raised relating to perceived wrongdoing in the organization and will strive to ensure that no Worker is discriminated against or suffer retaliation or detriment as a result of raising such a concern.

All Protected Reports raised by Reporting Persons will be reviewed and treated seriously and if assessed as warranted will be investigated appropriately.

This Protected Disclosures (Whistleblowing) Policy does not apply to disputes, claims or demands related to a Reporting Person's interest of a personal nature that pertains exclusively to their individual relations of work with a hierarchically superior.

Thus, this Policy does not replace existing procedures for personal differences or conflicts. If you have concerns within this area, you should consult with your line manager or a member of HR.

In addition, out of the scope of this Policy are:

Reports of breaches already regulated by European Union or national acts as per Article 4 of L. 4990/2022 (specified in Part II of the Annex to Directive (EU) 2019/1937);

Reports of breaches regarding national security as well as public procurement procedures related to national defense or security, unless such aspects are covered by the relevant secondary law of the European Union.

In any case, national or European Union laws on (a) classified information, (b) forensic, legal privilege, medical professional secrecy, and (c) secrecy of court deliberations will prevail over the provisions of L. 4990/2022 and of this Policy.

THE PROHIBITION OF RETALIATION

Marsh S.A. will not tolerate any harassment, victimization or Retaliation of a Protected Person, and will take appropriate action if harassment, victimization or Retaliation occurs. Any evidence given, that difficulties for the discloser occurred due to them raising a genuine

concern will be treated very seriously and is likely to result in disciplinary action.

Retaliatory acts are unacceptable and unenforceable.

If a Protected Person is dismissed as a result of a Protected Report, he has the right to be reinstated.

Under L.4990/2022, the Reporting Person may notify NTA of any form of Retaliation that they believe they have suffered

RAISING A CONCERN ANONYMOUSLY

A Protected Report may be raised anonymously. However, on a practical level it may be difficult to investigate such a concern.

Where Protected Report is made through the local Reporting Channels in Greece the Company cannot guarantee the anonymity and it may be difficult to give appropriate feedback to the Reporting Person; only the Global Reporting Channel can guarantee anonymity and appropriate feedback.

Therefore, we would encourage Worker(s) to mention their names in the Protected Report(s), with the assurance of confidentiality, to facilitate appropriate follow-up.

Anonymous Protected Report(s), if circumstantiated, are treated and handled by the Designated Persons as nominative ones. In such cases, the protection measures provided for by L.4990/2022 will be granted to the Protected Person if identified.

FALSE AND MALICIOUS REPORTS

If a Reporting Person makes a Protected Report in good faith, whether or not it is confirmed by subsequent investigation, no action will be taken against the Reporting Person.

Any disclosures that are found to be deliberately false, malicious, or vexatious in nature may result in disciplinary action taken against the Reporting Person, when his/her criminal or civil liability for the crimes of defamation or slander is established.

MAKING A PROTECTED REPORT

Who can I speak with?

There are many ways you can speak up or speak out.

INTERNAL REPORTING CHANNEL

A. Local Reporting Channel in Greece

You can make a Protected Report with the following Local Reporting Channels implemented by Marsh Greece:

- Greece.whistleblowing@marsh.com
- It is also possible to send a post Protected Report addressed to the confidential attention of the Compliance Officer at the company's mailbox located on the Company's premises in 8-10 Sorou Street & Dimitsanas, Marousi, Athens, Greece.

- The Reporting Person can also ask to the Person Responsible for Receiving and Monitoring Reports to arrange a face-to-face meeting to make an oral report, as specified in the following paragraphs.

B. Global Reporting Channel

All Workers are encouraged to submit a Protected Report through the Global Reporting Channel:

- Marsh McLennan group of companies independent reporting line which is run by a third-party organisation - the Ethics & Compliance Line ([EthicsPoint - Marsh & McLennan Companies](#)).

Protected Reports can be raised [online](#) or by phone (1-800-557-369).

These services are free, secure and confidential and available 24 hours a day, 7 days a week.

Please note that only the Global Reporting Channel can guarantee anonymity and appropriate feedback in case of anonymous Protected Report.

Protected Report(s) may be raised verbally or in writing through the Local or Global Internal Reporting Channels described above.

Should you make a Protected Report verbally, the Local Designated Office will transcribe integrally the Report; the Reporting Person will be given an opportunity to review, modify and sign for acceptance the Report before submission.

Should you make a Protected Report in writing we would ask you to give the background and history of the Report, giving relevant details, insofar as is possible, such as dates, sequence of events and description of circumstances.

If the written Protected Report is mistakenly received by a person or an office other than the Designated Office or through a channel other than those specified in this Policy, the person who received the Report must promptly forward it to the Local Designated Office, within seven (7) days of its receipt, while notifying the sender.

In case of a written Protected Report through Local Reporting Channels, the Reporting Person should clearly indicate the intention to keep confidentiality and to benefit from the protection measures provided for in the event of any Retaliation suffered as a result of the Report.

The Ethics & Compliance Line will help you to provide all the relevant information and will summarize the details in a Report that is sent to the Global Designated Office, consisting of trained individuals in Marsh & McLennan's Compliance, Employee Relations and Internal Audit teams. These recipients will independently assess your Report and will send to the Local Designated Office in Greece to investigate, fairly and impartially.

The Worker can forward a request to arrange a face-to-face meeting with the Designated Office to make a Protected Report through the Reporting Channels. For contact details please refer to the definition of the ***Person Responsible for Receiving and Monitoring Reports*** above.

The Local Designated Office, at the request of the Reporting Person, will arrange a meeting to discuss the matter on a strictly confidential basis within a reasonable period of time, and to clarify any concerns the Reporting Person may have, such as if the concern is appropriate to this procedure or is a matter more appropriate to our other

procedures, for examples our Grievance or Dignity in the Workplace procedures.

In regard to confidentiality, it is important that there should be an awareness of respecting sensitive Company information, which while unrelated to the Protected Report, may be disclosed in the course of a consultation or investigation process.

During the meeting, the Local Designated Office will help the Worker to provide all the Relevant Information and transcribe integrally the Protected Report. At the end of the meeting, the 'Local Designated Office' submits the report to the Reporting Person to make any changes and then to sign it for acceptance.

In case of anonymous reports through Local Reporting Channels, Marsh S.A. cannot guarantee anonymity nor be able to contact the Reporting Person for any need related to the Report.

Therefore, the Company invites the Reporting Person to submit reports by name or to use the Global Reporting Channels.

How we will deal with your disclosure?

Once the Protected Report is received and following the meeting with the Reporting Person in regard to the Report, and clarified that the matter is in fact appropriate to this Policy, the Designated Office will carry out an initial assessment to examine what actions need to be taken to deal with the matter. This may involve simply clarifying certain matters, clearing up misunderstandings or resolving the matter by agreed action without the need for an investigation.

If, on foot of the initial assessment, it is concluded that there are grounds for concern that cannot be dealt with at this point, the Designated Office will conduct an investigation which will be carried out fairly and objectively. The form and scope of the investigation will depend on the subject matter of the Protected Report and may change as the investigation progresses.

If on foot of the initial assessment, it is concluded that there is no evidence a Relevant Wrongdoing has occurred, the Reporting Person will be informed, and the matter will be closed. In some instances, the matter may be referred on to such other agreed procedures applicable to grievances to which another rule of law or enactment may be applicable. In any event, notification will be made to the Reporting Person in writing as soon as practicable and the reasons for such a decision being made.

Where the investigation is progressing, Protected Report(s) may, in the light of the seriousness of the matters raised, be referred immediately to the appropriate authorities. Likewise, if urgent action is required (for example to remove a health and safety hazard), this action will be taken.

It is important to Marsh S.A. that the Reporting Person feels assured that a disclosure made under this Policy is taken seriously and that he is kept informed of steps being taken by the Company in response to the Report.

Duties of the Designated Office

Once the Protected Report is received, the Designated Office:

- ensures that an acknowledgement of receipt of the Report is sent to the Reporting Person within **seven (7) days from the date of receipt**;
- starts the internal investigation of the reported facts or conduct if the Report appears to be well-founded; where the Report appears manifestly unfounded or generic, such that the facts cannot be understood, or accompanied by inappropriate or inconclusive

documentation, the Report is dismissed;

- provides an appropriate acknowledgement, within three (3) months from the date of the acknowledgement of receipt or, in the absence of such a notice, within three (3) months from the expiration of the period of seven (7) days from the submission of the Report. Acknowledgement means the communication to the Reporting Person of information regarding the actions taken or intended to be taken as a result of the Report;
- provides diligent follow-up, by maintaining, where possible, interlocations with the Reporting Person and requesting clarification where necessary. If the Report is not adequately substantiated, the Local Designated Office may request additional elements from the Reporting Person through the dedicated communication channel.

Where required by the investigation process, the Designated Office may be supported by other competent Company's functions.

In those cases, the Local and Global Designated Office must adopt all required measures to guarantee confidentiality, sharing only the necessary information and in any case without any reference to the identity of the Reporting or Involved Person(s) or to any personal data.

The Company adopts adequate security measures for the filing of Reports.

Based on the findings, appropriate actions will be taken, which may involve:

- the identification of measures aimed at overcoming the critical issues in the processes detected as a result of the Report;
- possible actions against the Reporting Person in case it emerges that the report was made with malice or in bad faith;
- possible actions against the Person Involved in case the Report turns out to be well-founded.

It is possible that in the course of an investigation the Reporting Person may be asked to clarify certain matters. If the Reporting Person requests it, the Designated Office arranges a face-to-face meeting. To maximize confidentiality such a meeting can take place off site.

Where a Protected Report is made in accordance with this Policy, but the allegation is subsequently not upheld by an investigation, no action will be taken against the Reporting Person who will be protected against any Retaliation. It is important to note that if an unfounded allegation is found to have been with malicious intent, then disciplinary action may be taken.

CONFIDENTIALITY AND DATA RETENTION

Marsh S.A. protects the confidentiality of Protected and Involved Persons.

The persons belonging to the Local Designated Office are expressly authorized by Marsh S.A. to process personal data. Only Local Designated Office staff have credentials and authorizations to access the Protected Reports and attend the face-to-face meeting.

Marsh S.A. also regulates the relationship with Marsh McLennan as regards the processing of personal data related to the management of Internal Reporting Channel.

The identity of the Reporting Person(s) and any other information from which can be inferred, directly or indirectly, such identity may not be disclosed, without their express

consent, to persons other than the staff of the Designated Office, expressly authorized to process such data pursuant Regulation (EU) 2016/679 (or 'GDPR') and Article 15 L.4990/2022.

The identity of the Reporting Person may be disclosed only in the following cases and under the following conditions:

- where the disclosure is required by law (i.e. requests from the judicial authority in criminal proceedings);
- within the internal and external reporting procedures, where knowledge of the identity of the Reporting Person is necessary for the defense of the involved person, only with the express consent of the Reporting Person;
- within the disciplinary procedure, if knowledge of the identity of the Reporting Person is necessary for the defense of the Person Involved and the charge is based, in whole or in part, on the Report, only with the express consent of the Reporting Person. In this event the Designated Office shall inform the Reporting Person in writing before his identity or the information concerned is disclosed, specifying the reasons for the disclosure of confidential data.

If personal data that is manifestly not useful for the processing of a specific Protected Report is accidentally collected, the Designated Office shall ensure its immediate deletion.

The Protected Report may not be used beyond what is necessary to adequately follow up on them.

The Local Designated Office keeps data related to Reports for as long as necessary for the processing of the specific Report and in any case for a reasonable and necessary period of time, in order to be retrievable and to comply with the requirements imposed by Law 4990/2022 and until the completion of any investigation or judicial process that has been initiated as a consequence of the Report against the Reporting Person, the Person Involved or third parties, in compliance with confidentiality obligations under L.4990/2022 and under Regulation (EU) 2016/679 (or GDPR).

Please refer to the Privacy Notice published at [Privacy Notice \(marsh.com\)](https://marsh.com/privacy-notice) for further information on relevant personal data processing. In addition to the above, pursuant to Article 15 of L. 4990/2022 and by way of derogation from the relevant provisions of the applicable data protection legislation, Marsh S.A. will not provide information on the processing of personal data to the Person Involved and any third parties named in the Report or whose personal data have resulted from monitoring measures, and in particular on the source of their data to the extent and as long as necessary for the purpose of preventing and countering attempts: (i) to obstruct reporting; (ii) to obstruct, frustrate or delay monitoring measures, in particular with regard to investigations; (iii) to identify whistleblowers, as well as for the purpose of whistleblowers' protection against retaliation. In addition, in such cases, Marsh S.A. may also not satisfy the right of access, the right to rectification, the right to erasure, the right to restriction of processing, or the right to object to processing when exercised by the person accused in a whistleblower's report and any third parties named in the report or resulting from monitoring measures. Each case will be judged separately and the reasons for Marsh S.A.'s refusal to satisfy a data subject request will be presented in writing. Even in cases where Marsh S.A. does not satisfy the aforementioned data subject rights or in cases where these rights are restricted, it takes all necessary technical and organizational measures to protect the rights and freedoms of individuals.

HOW THE MATTER CAN BE TAKEN FURTHER

The aim of the Policy is to provide an avenue within the workplace to deal with concerns or disclosures in regard to wrongdoing. We are confident that issues can be dealt with in Marsh S.A. and we strongly encourage Workers to report such concerns internally through our Global Reporting Channel.

However, where certain conditions are present, Worker(s) can submit Protected Reports through the additional External Channels provided for by the Greek law.

Pursuant to L. 4990/2022, the Worker(s) may use the External Reporting Channel established by NTA where the following conditions exist:

- in the work context, there is no obligation for implementation of the Internal Channel or, if mandatory, it has not been implemented;
- the Internal Protected Report has not been followed up;
- the Worker(s) has reasonable grounds to believe that, if an internal Report is submitted, it would not be followed up or that he would face Retaliation;
- the Worker(s) has reasonable grounds to believe that the violation may pose an imminent or obvious danger to the public interest.

The External Channel handled by NTA can be accessed through the NTA service portal at the following url: [External NTA Whistleblowing Platform \(aead.gr\)](https://aead.gr)

NTA publishes specific Guidelines on how to use this tool.

The Reporting Person may also make a Public Disclosure of information about the violation that has come into his or her possession in the work context if the following conditions are met:

- the Reporting Person has previously used the Internal or External Channel, but there has been no response nor follow-up within the prescribed time limit;
- the Reporting Person has reasonable grounds to believe that the violation may constitute an imminent and obvious danger to the public interest;
- the Reporting Person has well-founded reason to believe that the external Report may involve the risk of Retaliation, or may not be effectively followed up due to specific circumstances of the concrete case.
